Sub :- **Modification in Business Logic in e-Procurement System**

Ref :- 1.Letter no CIL/Civil/31/Pt.IB/49-64 dated 20/21-10-09

2.Letter no.MCL/SAMB/CIVIL/09-10/2530 Dated 12.03.2010

Dear Sir

In accordance with the above referred amendment of Manual by CIL Board the following changes in business logic for evaluation in e-Procurement has been made which will be effective w.e.f. 22.03.10 :

1. **For Works Tender** : For the works commenced before the start date of eligibility period and completed during the said eligibility period, **full value of work** shall be considered.
This has been communicated by GM(Civil) vide letter under reference (2)
2. **For Service Tenders** :
 - a. The experience of bidder should be 65% of the **Annualised Value or Estimated Value whichever is less** of the work put to tender in any year.
 - b. The Working Capital of bidder should be 20% of the **Annualised Value or Estimated Value whichever is less** of the work put to tender in any year.
 - c. **The Fleet criteria** has been made optional and to be selected, if required during tender creation.

These changes in e-Procurement system will be effective from 22.03.10. The necessary changes in future NITs are required to be made by user departments.

It has to be ensured by the Tender Committee during evaluation that the bids submitted during this transition period are evaluated as per the clauses of the individual NITs.

The pilot tender in e-Procurement of Material will be done on 24.03.10..

Thanking you.

Yours faithfully,

22.03.2010

(S.K.Bhanja)
