**For Selection of a Joint Venture Partner for setting up a 2x800 MW Coal based Super Critical Thermal Power Plant for MCL in Sundergarh District, Odisha**  
**GLOBAL INVITATION FOR EXPRESSION OF INTEREST (EOI)**

**For Selection of a Joint Venture Partner for setting up a 2x800 MW Coal based Super Critical Thermal Power Plant for MCL in Sundergarh District, Odisha**

**Background:**

Mahanadi Coalfields Limited (MCL), a subsidiary of Coal India Limited (CIL) and having coal mines spread across the State of Odisha, has a long term production plan in Basundhara - Garjanbahal mines in Sundergarh District(Odisha) to produce about 13 MT non-coking coal in the terminal year of 11<sup>th</sup> Plan and about 34 MT in terminal year of 12<sup>th</sup> Plan. The Power requirement of MCL will be around 150 MW by the end of 13th plan. MCL is now exploring possibility of setting up a 2x800 MW pit-head super critical thermal power plant in the vicinity of the Basundhara - Garjanbahal coal mines with a Joint Venture (JV) partner to be selected through Tariff based International Competitive Bidding. A Special Purpose Vehicle (SPV) is being incorporated by MCL for the above purpose. MCL would have atleast 26% equity stake in the JV. Coal for the Power Plant would be provided by MCL.

**The Opportunity:** An opportunity for Indian as well as Overseas Developer(s) exists to set up a 2x800 MW Super Critical Thermal Power Plant in JV with MCL. The developer would be selected through Tariff Based International Competitive Bidding Process.

EOI and suggestions are invited from interested developers for entering into a JV with MCL for setting up a 2x800 MW super critical thermal power plant in Sundergarh District, Odisha.
